

DISTRICT OF COLUMBIA
PUBLIC SCHOOLS

WHAT IS YOUR SCHOOL FEEDER PATTERN?

A guide through the SY25-26 PK3-12th grade options and pathways for students and families.

FIND IT AT DCPS

- DCPS offers exceptional programming from PK3 through 12th grade for every student in the District of Columbia.
- Every student in DC has a right to directly enroll at a DCPS in-boundary school in grades K-12.
- A DCPS PK3 or PK4 seat is available for every student in DC.
- Every student can also choose to apply to great programming in out-of-boundary, citywide, and selective high schools and programs.

FAQS

• What is an in-boundary school?

A school that a student has the right to attend based on a student's home address.

• What is an out-of-boundary school?

A school other than a student's in-boundary school.

• What is a feeder pattern school?

A feeder pattern school is a school that a student has the right to attend based on completion of the terminal grade of a student's current school. This assignment only happens during the years a student moves from elementary to middle school, or from middle school to high school, or from an education campus to high school. There are two types of feeder patterns:

- **Geographic Feeder Pattern** schools are grouped by school boundary and proximity. Geographic feeder pattern rights extend to students who enrolled in a school through a formal placement as well as to those who enrolled out-of-boundary through the My School DC lottery. Geographic feeder pattern rights do not extend to students who enroll as in-boundary students and then move out of the boundary, or to out-of-boundary students who withdraw before completing their school's terminal grade.

- **Programmatic Feeder Pattern** schools/programs are organized by a specialized program of study (such as Dual Language). A programmatic feeder pattern provides the right for a student enrolled in a specialized school/program to enroll in the next level school within the specialized course of study as they transition into middle school or high school.

• How does DCPS serve special education students?

DCPS aspires to be a model district for special education. A child with a disability is eligible for special education and related services through the end of the school year the child turns twenty-two (22). DCPS' goal is to provide high quality inclusion and special education services, and to dramatically improve academic outcomes for students with disabilities. Information about a child's disability, including whether the child has an IEP, is not a factor in determining if a student can enroll in a DCPS school. For more information about special education programs, please see the Special Education Programs and Resources Guide at dcps.dc.gov/specialeducation.

ABOUT THIS GUIDE

This booklet defines the PK3 - 12th grade options and pathways that DCPS offers students and families.

How do I use this guide?

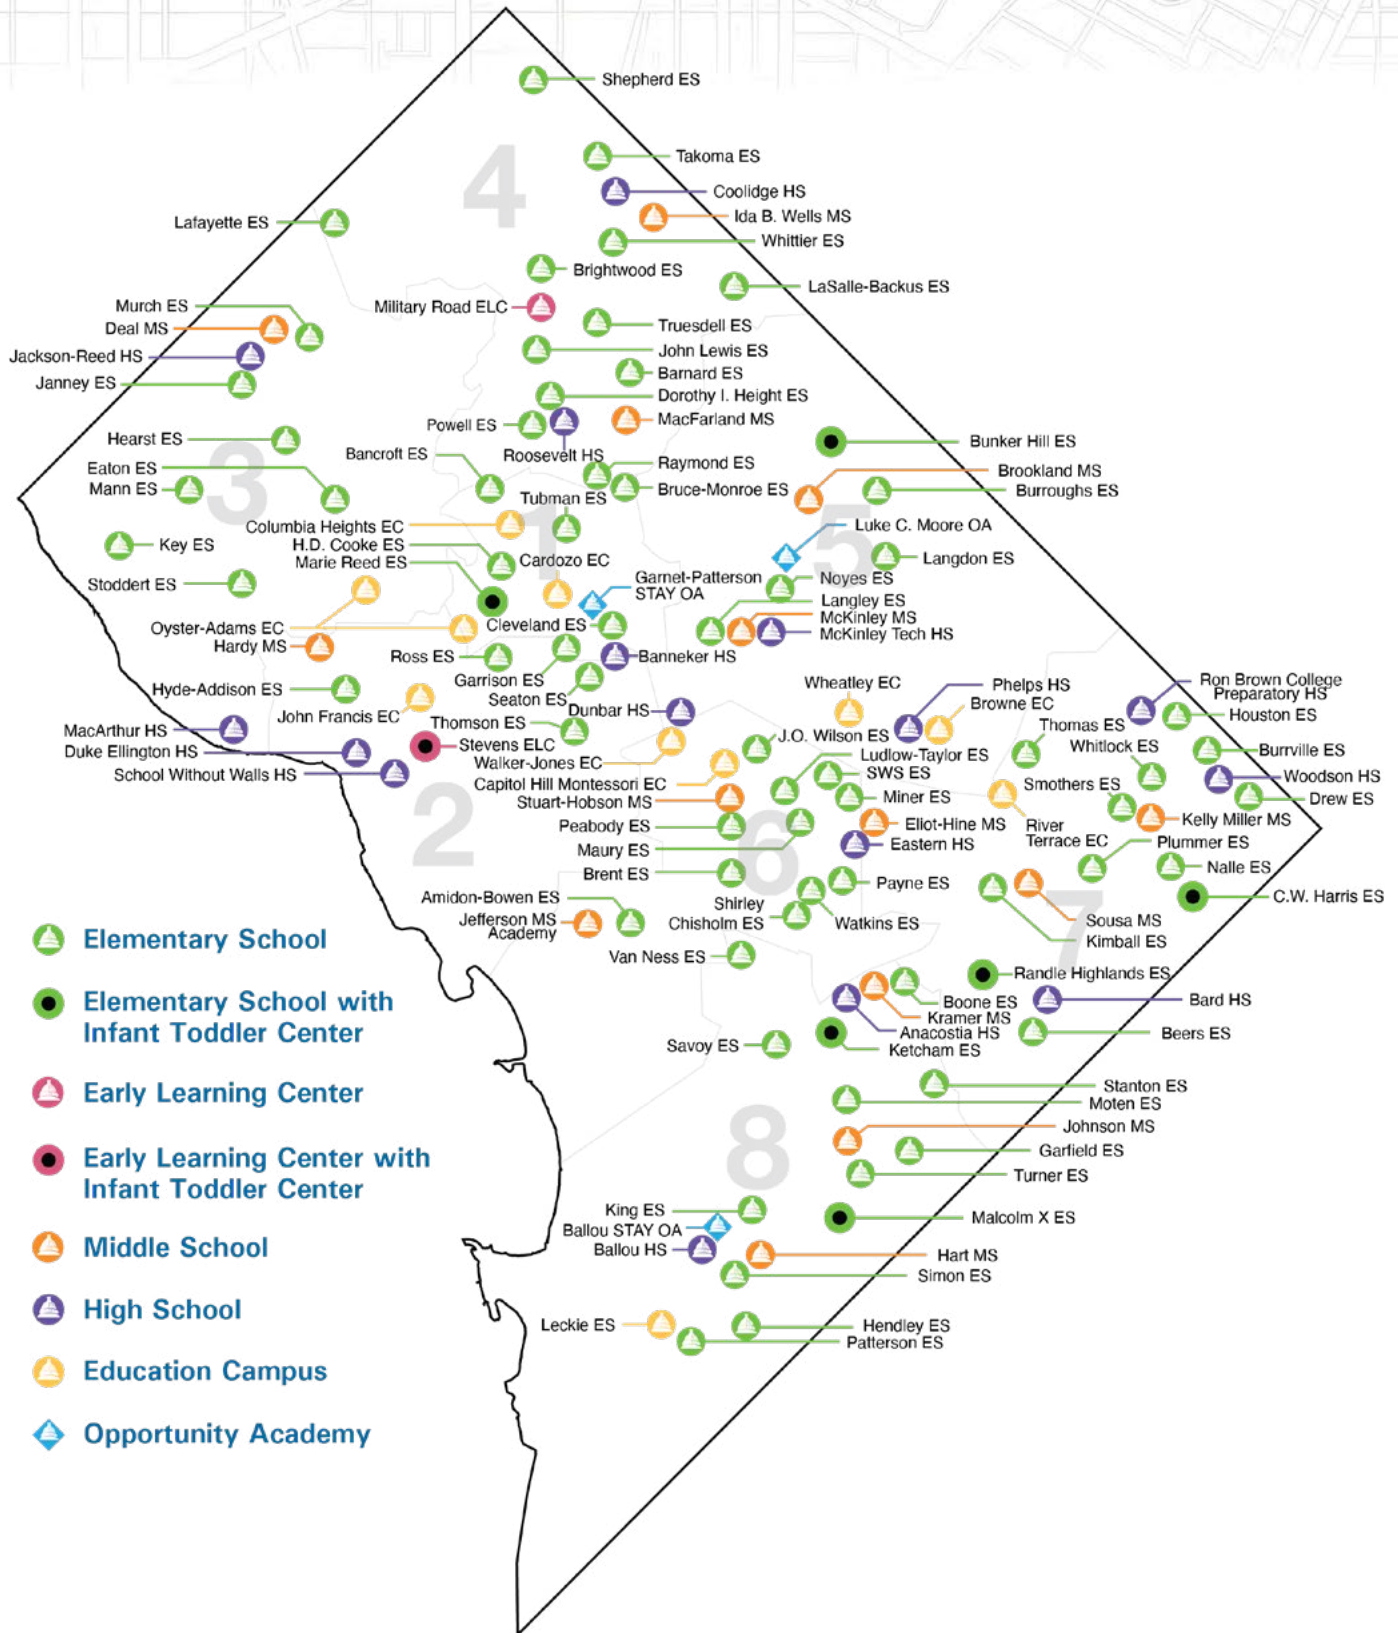

- Find** Find your in-boundary school at enrolldcps.dc.gov/node/41.
- Learn** Learn about programs at your school and in your feeder pattern at profiles.dcps.dc.gov.
- Visit** Get to know the schools in your feeder pattern. Many schools offer opportunities to visit. Check them out at enrolldcps.dc.gov/node/16.
- Apply** Some schools require an application; apply via myschooldc.org.
- Read** Read the DCPS Enrollment and Lottery Handbook at enrolldcps.dc.gov/node/66.
- Enroll** Enrollment typically begins in April of each year. Learn how to enroll in DCPS at EnrollDCPS.dc.gov.
- Graduate** DCPS strives to empower our students on their path to graduation with the tools they need to be successful by creating policies that are supportive, inclusive, and equitable. Learn about our graduation policy at dcps.dc.gov/prektograduation.

MAP OF DCPS SCHOOLS

NOTE: Review DCPS building swing spaces via dcps.dc.gov/page/school-planning

PROGRAM OFFERINGS

Afterschool OSTP Sites: DCPS afterschool programs allow students to participate in academic and extracurricular activities, and to develop new hobbies and skills. DCPS teachers, paraprofessionals, and community-based organizations provide a variety of unique programming options to students. Schools that are not an Out of School Time Program (OSTP) site may still have programs for students after the instructional day.

Before Care: DCPS teachers, paraprofessionals and community-based organizations provide a variety of programming and breakfast before the start of the instructional day. Please check with your school directly to inquire about their before care offerings.

Career and Technical Education (CTE): CTE programs are defined by a four-course sequence for high school students, in addition to their core content classes, which includes preparation for industry-recognized certification exams and work-based learning experiences (such as internships, job shadowing, and industry field trips). The specific types of CTE programming vary at each high school from career pathways like Engineering and Computer Sciences to Audio Visual Production and Hospitality Management. Please contact your high school of choice to find specific details of their programs.

Citywide: A school that does not have a designated boundary and therefore cannot be claimed as an in-boundary school. Citywide schools can only be accessed through the lottery and do not provide guaranteed enrollment to any student/family. Students from across the District of Columbia must submit a My School DC lottery application to attend a citywide school.

Connected Schools: DCPS Connected Schools partner with the community to provide an integrated approach to academics, health and social services, youth development, and community engagement in order to ensure all students are able to thrive in school and in life. The work of a Connected School is community driven, with family and student voice guiding decisions and programming. Each Connected School has a full-time Connected School Manager who coordinates partnerships and resources and helps families connect to a wide range of opportunities and services. Learn more at dcpsconnectedschools.org.

DCPS Design Lab: The Design Lab is an Innovation Hub providing forward-thinking school communities with the network, resources, and support they need to boldly reimagine their schools. This includes support from individual innovation pilots for specific programs to whole school Redesign. Through a partnership with the XQ Institute, the DCPS Design Lab is also supporting community-driven design initiatives specifically for DCPS high schools.

Dual Enrollment: In collaboration with National Ed Equity Lab and area colleges and universities, DCPS offers its students the opportunity to take college-level courses while in high school tuition-free. In addition to being able to take challenging college courses that may not be offered at their home high school, DCPS students are given the opportunity to earn college credit that can be transferred to many postsecondary institutions. All DCPS high school students are eligible to apply to these programs. Learn more at dcps.dc.gov/service/participate-dual-enrollment.

PROGRAM OFFERINGS

Dual Language: DCPS operates dual language programs that offer instruction in English and Spanish. There are some schools that operate a dual language program within a comprehensive or traditional school model which is called a “strand” (🗨️) program. There are other schools that offer a “whole” (🗨️) school dual language program in which every student is enrolled.

Early College: Early College allows students to earn both a high school diploma and up to two years of college credit (or an Associate’s degree) during their 4 years of high school. Early College programs are application-based programs within the designated high school.

Early Learning Centers: Standalone schools that serve PK3 and PK4.

Equitable Access: The Equitable Access program is designed to expand access to PK3 and PK4 for students furthest from opportunity. My School DC lottery applicants that have been identified as experiencing homelessness, are in the District’s foster care system, or are receiving Temporary Assistance for Needy Families (TANF) or Supplemental Nutrition Assistance (SNAP) will receive additional considerations in the school lottery process when applying to PK3 or PK4 at these schools. In addition, one high school, MacArthur High School (neighborhood school), will offer Equitable Access in SY25-26. Learn more at dcps.dc.gov/page/dcps-equitable-access-program-sy25-26.

EMOC

REIGN

Equity Strategy & Programming (ESP): ESP’s student facing work takes place within two major initiatives, Reign: Empowering Young Women as Leaders (👑) and EMOC: Empowering Males of Color (★★★), which support schools in creating safe, affirming and empowering spaces for students of color and their allies to build community, confidence and leadership skills. ESP’s are grounded in community responsive programming so that students of color and their allies are engaged, supported, and included.

Global Studies Schools: In 2016, DCPS launched Global Studies School sites aimed at incorporating global perspectives across all grades and subjects. Today, these schools collaborate with local and international partners to provide world language classes, dual language programs, specialized global curriculum and educational paths that emphasize enhancing students’ global awareness and skills.

Infant and Toddler Centers (ITC): DCPS partners with high quality early education providers to offer exemplary early learning opportunities to infants and toddlers in centers located inside a small number of DCPS elementary schools. Early learning centers serve children ages 6 weeks to 3 years in close collaboration with the DCPS Early Childhood Education Division and the elementary schools where they are located. Families can expect excellent and affordable early education in a supportive environment with strategic coordination between the infant/toddler classrooms and the DCPS Pre-K classrooms. For more information about enrollment, please contact the school directly or email dcps.earlychildhood@k12.dc.gov.

PROGRAM OFFERINGS

International Academy (IA): The model is designed for English Learners who are recently-arrived students at the beginning of their English language development. Students with limited or interrupted formal education are welcome. The program focuses on several core principles including: integrating content and language instruction, leveraging native language use, and learning through collaboration.

International Baccalaureate (IB): The DCPS IB school network provides a pathway to an internationally recognized diploma. For more than 35 years, the IB Program has developed a network of more than 3,700 schools in 145 countries. DCPS IB schools develop inquiring, knowledgeable, and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

JROTC: Junior Reserve Officers' Training Corps (JROTC) serves as a character and leadership development program for our nation's high school students. It prepares high school students for responsible leadership roles while making them aware of their rights, responsibilities, and privileges as American citizens. The program is a stimulus for promoting graduation from high school, and it provides instruction and rewarding opportunities in cyber security, drone operations, and robotics that will benefit the student, community, and nation. Cadets graduate from high school able to pursue meaningful government and public administration careers in areas of science, technology, engineering, and mathematics.

Strand

Whole

Montessori: The goal of Montessori education is to foster a child's natural inclination to learn. Montessori teachers guide rather than instruct, linking each student with activities that meet their interests, needs, and developmental level. The classroom is designed to allow movement and collaboration, as it also promotes concentration and a sense of order. All DCPS Montessori programs are Association Montessori International (AMI) certified. There are some schools that operate a Montessori program within a comprehensive or traditional school model which is called a "strand" () program. There is another school that offers a "whole" () school Montessori program in which every student is enrolled.

NAF College & Career Academy: NAF Academies are the primary school-based program structure through which DCPS implements Career and Technical Education at the high school level. NAF Academies offer strong student and teacher support structures, continuous development of college and industry partnerships, career-focused internships, and rigorous curricula that culminates in industry recognized certifications.

Ninth Grade Academies: Ninth Grade Academies in DCPS are schools within a school designed to offer rich, responsive, and well-rounded educational experiences for students transitioning from eighth grade to succeed in ninth grade and beyond. Teams of teachers provide personalized instruction, team building activities, and socialized learning so students have meaningful reasons to engage with school. Progress is monitored closely and shared frequently with students and families.

PROGRAM OFFERINGS

Opportunity Academy (OA): These are schools designed to help overaged and/or under-credited students get back on track, graduate, and become successful in college and career. They are diploma-granting high schools that offer robust programming designed to meet the needs of each student. To enroll, students may either be referred or selected to attend. Students further behind have priority placement.

Schoolwide Enrichment Model (SEM): SEM is a non-traditional approach to gifted education and provides a broad range of advanced-level enrichment experiences for all students. Each secondary SEM program has one to two full time, professionally trained enrichment resource teachers who facilitate a wide range of academic course offerings that fall largely outside of the core curriculum. SEM elementary schools have either a SEM resource teacher or a SEM committee who manage the enrichment opportunities for students.

Science, Technology, Engineering and Math (STEM): STEM integrates science, technology, engineering, and math so that each of these content areas is taught within other content areas and equally alongside literacy and composition. The goals of DCPS STEM integration are to improve student readiness for STEM majors and careers as well as prepare all students to be STEM-literate citizens.

Selective High School/Program: Selective DCPS high schools/programs admit students based on specific eligibility criteria and require an application for entry into the school. All students eligible to enroll in grades 9-12 can apply, but only those who meet a selective high school's/program's requirements will be eligible to attend. DCPS selective high school/programs have no boundaries and admit students based on specific criteria. Students applying to one or more DCPS selective high schools/programs must complete an additional section of the My School DC application. The additional section is different for each school/program because each school/program has its own requirements. Learn more about DCPS selective high school/program admission criteria: myschooldc.org/how-apply/applying-selective-citywide-high-schools.

Single Gender Campus: DCPS operates one all-male school, Ron Brown College Preparatory High School, and one all-female PK3-8th grade school, Excel Academy.

Sixth Grade Academies: Sixth Grade Academies in DCPS support the transition into middle school by providing rich, responsive, well-rounded experiences for students. Academies work to maximize students' attendance, academics, and sense of belonging. Teams of teachers work together to provide individualized student supports, proactive family engagement, unique opportunities outside the classroom, and signature field experiences.
